Education

Indian Institute of Information Technology (IIIT) Bhopal

Sept 2023 – June 2027

Bachelor of Technology in Computer Science and Engineering

Bhopal, India

Relevant Coursework: Data Structures & Algorithms, Operating Systems, OOPs, DBMS, System Design

Experience

Founding Engineer — ARK (Social Impact Platform)

June 2025 – Present

React, Node.js, Supabase, PostgreSQL, Docker, CI/CD, Render

[Live](#)

- Built and scaled a **full-stack social-impact platform** using React and Node.js, supporting **200+ active users**.
- Facilitated **25k+ in donations** by improving donation workflows and platform user experience.
- Onboarded **3 NGOs** through direct outreach and collaboration, expanding the platform's partner network.
- Collaborated with **10+ volunteers** to understand requirements, coordinate activities, and deliver platform improvements.
- Resolved **20+ production issues** through testing, debugging, and CI/CD deployments following an **Agile development methodology**.

Full Stack Development Intern — QuickIntell

Dec 2025 – Jan 2026

Next.js, TypeScript, Node.js, RESTful APIs

- Developed and enhanced **dashboard features** using Next.js and TypeScript for internal business workflows.
- Built and integrated **3 RESTful APIs** with Node.js to connect frontend modules with backend services.
- Worked on **data-driven dashboard components**, debugging issues and improving functionality and responsiveness.

Achievements

- Rated **1613** on LeetCode (**Top 22%** globally) and **1619 (3-Star)** on CodeChef;
- Solved **450+ DSA problems** across LeetCode, CodeChef, and GeeksforGeeks demonstrating problem-solving.
- Led a **30+ member** music club team and coordinated **15+ institute events** at IIIT Bhopal.

Projects

ShortX – Distributed URL Shortening System

2026

Node.js, PostgreSQL, Redis, Docker

[GitHub](#)

- Built a **sharded URL storage system** using **PostgreSQL**, routing mappings across 3 shards for **horizontal scalability**.
- Reduced redirect P95 latency by **91.5%** using a **Redis LRU cache**, validated through load testing.
- Implemented **Redis-backed rate limiting** and graceful shard-failure handling for resilient request processing.

Diagheal – AI-Powered Healthcare Platform

2026

Next.js, FastAPI, CatBoost, PostgreSQL, Tailwind CSS

[Live](#) — [GitHub](#)

- Solved manual medical report interpretation by building a **full-stack platform** using **Next.js, FastAPI, PostgreSQL**.
- Improved model **prediction accuracy** by **optimizing CatBoost** through **data cleaning** and **false-positive reduction**.
- Automated report analysis and diet recommendations via **Groq API** integration.

Technical Skills

- **Languages:** C++, Java, JavaScript (ES6+), Python, SQL
- **Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS
- **Backend & Databases:** Node.js, Express.js, REST APIs, PostgreSQL, MongoDB, Supabase, Redis, BullMQ
- **AI & ML:** LLM Integration, Generative AI, CatBoost
- **DevOps & Tools:** Git, GitHub, Docker, GitHub Actions, CI/CD, Render

Certifications & Training

- **Software Engineering Job Simulation (Forage):** Built REST APIs and Kafka real-time streaming workflows.
- **Multi Cloud + DevOps Bootcamp:** Mastered Docker, cloud deployment strategies, and CI/CD pipelines.
